

We would like to take this opportunity to let Kurt know what a fantastic job Joyce did in working with us. She made a very hard task for us easy and actually fun. My mother had been looking at headstones for a year, not finding what she had pictured in her mind. She had taken photos of what she saw on other headstones that she liked and wanted to put all of her likes together on one. She had went to several of your competitors and left aggregated and upset...all telling her what she wanted couldn't be done and one actually belittling her wish. Joyce listened, made suggestions, and enhanced what mom had been looking for all along. There just are not enough words to explain what a relief it was to have someone so understanding and helpful. You have a jewel working for you and we cannot thank you enough.

Donna Campbell

PS....the headstone looks great.
