OF NORTH AMERICA
THE MARK OF EXCELLENCE

At Hiron Memorial Works, Inc. we pride ourselves on the high quality of materials and craftsmanship that go into each and every memorial we create. We want you to be completely satisfied with the results. That's why we guarantee every memorial we sell against defects in material or workmanship. We want you to have the peace of mind that your memorial will be just what you wanted and will stand the test of time.

Memorial Guarantee

We hereby certify the memorial you purchased was fabricated from the finest quality natural granite.

We guarantee the granite used is free from defects that would render it unsuitable for memorial purposes and that it will not crack or disintegrate.

Should any part or parts of a memorial we produce ever prove to be defective in either material or workmanship we will correct the problem or replace the memorial free of all expense to the purchaser or their heirs.

We regret we cannot be responsible for damage done to the memorial after delivery to the cemetery by mowing equipment, natural disasters, vandalism, vehicle impacts, unusual environmental conditions, or other events beyond our control. Additionally, this guarantee does not cover foundations not provided by our company or the temporary painted on color enhancements applied to some memorials.
